

After our last newsletter, it was time for an update on the progress of the SPARKLE project. The e-Learning course was supposed to start with the mixed, online and face-to-face pilot e-Learning course this spring. Unfortunately, the pandemic is affecting more and more people, therefore the face-to-face part can no longer continue as planned, but we are working all together to find a valid alternative for the participants of the course. In the meanwhile, **we are happy to announce the online part on moodle has started and we have reached over 300 attendees!** On behalf of the entire SPARKLE team we wish you all the best.

Stay safe and happy reading!
