Dear SPARKLE community member,

a lot has happened since our last newsletter!

First, the 4th SPARKLE meeting took place in Madrid on 7th - 11th October 2019, at The Spanish National Research Council's (CSIC) venue. Main purpose of the meeting was the finalisation of the E-learning courses' material.

After the meeting, partnerships have created interesting slideshows and videos that will soon be uploaded on our MOODLE online platform.

Moreover, we would like to share with you our [first results](#) of the project ranging from technological trends in the Precision Agriculture (PA) field to the Business Model Canvas, which is a methodology that allows entrepreneurs to describe, design and innovate their business model.

In this newsletter, we also present you with:

- A look into our training educational package;
- An article about the benefits of attending an E-learning course;
- A preview of the new E-learning course brochure.

KEEP READING!
