Dear all,

SPARKLE e-Learning course "*Entrepreneurship for Sustainable Precision Agriculture*" is **now available**! We are pleased to announce the release of our free course hosted on moodle: **http://sparkle-project.eu/moodle/**

This course is designed for *university students*, *academics*, *school students*, *agri-entrepreneurs*, *service providers* in the field of agriculture who wish to deepen their knowledge of Sustainable Precision Agriculture.

The course is free (http://sparkle-project.eu/moodle/)

The e-Learning course is developed by the **Sparkle consortium** (http://sparkle-project.eu/partnership/) composed of 3 different categories of European partners: Universities, Companies providing advanced services to companies/farms, Farms adopting PA technologies from Italy, Greece, Spain and Portugal. The teaching materials and architecture have been designed on the basis of a primary needs assessment research conducted on a large number of European university students, researchers and farmers. The course includes **four general areas** (Sustainable Precision Agriculture Overview, Technology, Social and Economic Aspects and Entrepreneurship in Farming) and **twelve lessons in total** (Introduction to SPA, Variable and Systems, Positioning Systems, Proximal Sensing, Variable Rate Technology, Data Analysis, Communications, Policy and Management, Entrepreneurship in SPA and a Toolkit for Agripreneurs 4.0).

The course is designed to cover a multitude of technical and social, economic or environmental aspects and is, therefore, **a holistic approach to precision farming and related entrepreneurship**.
Enjoy it!

ENROLL THE SPARKLE E-LEARNING COURSE!

The virtual **Sparkle final conference** on 10-11 December was attended by many people, which made us very happy. The project has been a crucial opportunity to make order in a common widespread scenario that is often chaotic and poor including that of high technology and digitalization for sustainable agriculture. We hope that the **material** we have **developed**, not only the **moodle platform**, but also the **many other resources will be helpful and inspiring for all of you**.
Thank you for supporting us and see you soon!
